Getting Started

Q.1 What is the Overdrive / Libby Digital Library and how does it work?
The ACC Overdrive digital library is a custom digital collection of e-books and, audiobooks, that is open to ACC members 24/7. You can search titles and subjects from the ACC OverDrive website at https://accairo.overdrive.com/ or via the OverDrive or Libby apps. You can borrow books for up to three weeks at a time. Titles are automatically returned at the end of the loan period, and there are no late fees. If you are interested in a title that is checked out by another ACC member, you can put it on hold. It will be automatically checked out to you when it becomes available.

Click on a title's cover. If the title is available, click "Borrow". If you are using the Libby app, your title should load immediately. Q. 5 What is the difference between Libby and the OverDrive app?

Libby is an app from OverDrive. It has the same collection of titles as the OverDrive app - it’s just a different way to access the same digital library collection. OverDrive is the “classic” app, and is compatible with more devices, including Kindle Fire, Macs, PCs, and Windows mobile devices. It also allows for transfer to MP3 players from computers. Libby is new, and doesn’t yet have all of the features that the OverDrive app does, such as robust accessibility features.

You can place holds on unavailable titles, but you can also limit your search to only items that are available right now. There are three methods:

Choose from Collections:

1. Look for the Collections option at the top of the page. Under e-books or, audiobooks, choose Available now.

   If you are on a smaller device/screen, you may need to click the three lines at the top right to expand that menu.
2. Limit results to Available now:

Search by title, author or topic first OR browse by collection or subject. After getting initial results, under **Availability** choose **Available now**. If you do not see these options, first tap or click filters near the top.

**Borrow** means the book is available. **Place a Hold** means all the copies that we own are checked out. You can place a hold and when a copy becomes available for you, you will receive an email, which will include a link to borrow the book. From there you can download it or read/listen to it in a web browser.

Publishers require us to treat eBooks like physical books. Thus, if we own two copies of an eBook that means two customers can use it at a time. If another customer would like it, that customer can place a hold to get it next.

We purchase hundreds of titles in a frequent basis newly added titles appear at the top of the https://accairo.overdrive.com/ website.

**Q.11 Can I use an OverDrive book without an Internet connection?**

All OverDrive items require an internet connection to initially borrow them. Most items can then be downloaded for offline use—it depends on the format and your device.
